

Response to Provider Question Addendum #1

1. On page 3 below organization history and experience asks for "statement of related program services"

Where is that in this RFQ and or what does this mean? I cannot find it anywhere.

We are asking for a freehand statement

2. We carry all the insurances required in the RFQ, but do not have the limits required, I have raised them before for grants we have had, and it is very simple, to do if awarded , Do I have to raise them to apply ?

This is needed if we offer a contract and you accept.

3. We do not have audited financials, is there another option? We don't make enough money to do this.

An audit is a requirement to receive the contract. If no audit has been performed, please make a statement as to the reasons why not, when an audit is planned, and by what agency/individual.
