# GENERAL INFORMATION & Frequently Asked Questions

## What is Child Support?

Child Support is a monthly amount that the court orders one parent to pay to the other parent in order to help with the costs of supporting their child. Child Support is calculated from many factors. These factors include how much money each parent earns, the typical cost of raising a child, how much parenting time each parent has, who pays for medical insurance and childcare and how much, as well as several other factors.

As long as you know the information, or can estimate the information, the online Child Support Calculator will do the math for you.

**Determining who should pay child support and how much is complicated, but these instructions should help guide you through the process.**

This symbol is a warning. It can mean a few different things:

- The topic can be confusing and you may need to ask a lawyer for help
- You need to make sure that something is done

Whenever you see this symbol, ***make sure*** you read the information carefully and completely understand it.

Child Support Guidelines: These Guidelines establish a standard across the State of Arizona. The rules construct child support to reflect children's reasonable needs and parents' ability to pay. Under the Guidelines, the court must calculate child support for *each case* involving minor children. The court will ask for your relevant information even if both parents have agreed not to pay child support. This assures that the arrangement serves the children's best interests.

## When can I ask for Child Support?

This packet can be used to establish child support as part of a Dissolution (Divorce), or a Paternity case, or as a separate child support request.

You can also use this packet to modify existing child support after there has been a substantial and

continuing change in the parent's circumstances. You must also complete Packet #24, *Modification of Child Support*.

### **How do I ask for Child Support?**

Use the online Child Support Calculator and the instructions in this packet to calculate each parent's child support obligation (the monthly amount that he or she should pay). ### **Do I need a lawyer's help?**

Legal problems often seem complex and difficult to understand on your own. You may want to seek the advice of a lawyer. There are lawyers who will help you help yourself. This means that they will only charge you for giving you the help that you need: you may complete the court forms on your own or ask a lawyer for help.

For more information, call the **Law Library and Resource Center at (520) 724-8456**. Or visit <https://www.sc.pima.gov/law-library/>

### **Are there free Child Support Services I can request?**

This service is either free, or available for a small cost of \$25.00 each year, depending upon how much child support you will receive. ## Complete the Worksheet as Follows

On the first page of the Worksheet,

### ENTER CASE DETAILS

- Case number (Line 10): Type your case number (found on the Petition)
  - If you have not yet filed a Petition, you can write in the number later, after a case number is assigned to you.
- IV-D case (Line 10): *If your case was filed as a IV-D case by the State of Arizona*, click the box to check it. If your case is not IV-D, do not click to check the box.
- County (Line 10): Type, or select from the drop-down list, the County you are filing this case in. If you're using this form, it's probably Pima County.
- Petitioner name (Line 12): Type Petitioner's full name
- Respondent name (Line 14): Type Respondent's full name
- Children's Names (Lines 18-23)

*Beginning with the oldest child, type each child's:*

  - Last Name
  - First Name
  - Middle Initial (MI)
  - Date of Birth, two digits for month / two digits for day / four digits for year, for

example, 02/14/2015

The children's ages will automatically be calculated and shown below.

- Hourly Minimum Wage (Line 30): Enter the minimum wage of the payor only if it is different from the number to the right of the box.

### ENTER CHILD DETAILS

Primary Residential Parent (Line 49):

- Select which parent is the primary residential parent, or equal time if the parents have essential equal parenting time.

### ENTER FINANCIAL DETAILS

Gross Monthly Income (lines 51-52):

- In the **first** line, type that parent's gross hourly, monthly, or yearly income (*before* deductions)

The term "gross income" DOES NOT have the same meaning here as it does when used for tax purposes. Here, you need to enter the amount each person is paid before anything is subtracted. For example, if the Father makes minimum wage, the amount to enter would be \$12.80 per hour.

- In the **second** line, type the other parent's gross hourly (hr), monthly (mn), or yearly (yr) income (*before* deductions)

**NOTE:** There is no option for gross income received *every two weeks*. "Every two weeks" is not the same as "monthly." If you are paid every two weeks, use the following calculation:

- (1) Multiply the amount received every two weeks (*before deductions*) by 26 (to get a gross annual income)
- (2) Divide that amount by 12 (to get a gross monthly income)
- (3) Type in this amount and select (mn) from the box located below to show the amount typed in is earned monthly.

Gross Monthly Income (Line 52):

Based on the information you previously entered, these amounts will be calculated and shown for you.

Court-ordered spousal maintenance (paid) (Line 54):

- In the **first** column, type how much **Father** *pays monthly* in court-ordered spousal maintenance (if any). Enter the number as a negative number.

- In the **second** column, type how much **Mother** *pays monthly* in court-ordered spousal maintenance (if any). Enter the number as a negative number.

**NOTE:** This refers to spousal maintenance from previous relationships as well as spousal maintenance that may already be ordered in the current case.

Court-ordered spousal maintenance (received) (Line 54):

- In the **first** column, type how much **Father** *receives monthly* in court-ordered spousal maintenance (if any).
- In the **second** column, type how much **Mother** *receives monthly* in court-ordered spousal maintenance (if any).

**NOTE:** This refers to spousal maintenance from previous relationships as well as spousal maintenance that may already be ordered in the current case.

Other children (Line 55-58):

This section refers to minor children from *other relationships that live with the party* and **ARE** covered by other court orders (such as parenting time or child support).

- Under “Court Ordered Child Support of Other Relationships (Paid)” (Line 55), insert the amount actually paid.
- Under “Support of Child(ren) from Other Relationships” (Line 56), enter the number of children for each parent that are not covered by this case.

Adjusted Child Support Income (Line 59):

Beneath each column, the website will calculate and show each parent’s Adjusted Child Support Income.

Combined Adjusted Child Support Income (Line 60):

The website will add the parents’ Adjusted Child Support Income and show the amount on the line.

Basic Combined Child Support Obligation (Line 61):

Based on the number of minor children in this case, the website will calculate the parents’ Basic Combined Child Support Obligation based on the parents’ combined incomes and outside spousal and child obligations.

**ADDITIONS – This section only refers to minor children of this relationship**

The next section of the form will adjust the Basic Child Support Obligation by adjusting for the increased costs for teenaged children, children’s insurance, childcare, and other extraordinary expenses.

Adjustment for children over the age of 12 (line 64):

Typically, it costs more to raise teenaged children. Arizona Child Support Guidelines allow for an increase in the Basic Child Support Obligation for each minor child of the relationship who is 12 and older. The website automatically fills this portion out based on the dates of birth typed in for each child at the top of the worksheet.

- The **first** box shows the number of children age 12 and older.

The website will calculate and show the adjustment on the line.

Medical, dental, and vision insurance paid (Line 65): This refers to the insurance premiums paid for *only the children's* insurance.

**If you have combined family coverage, you must find out how much of the premium covers the children's portion of the insurance. If you receive insurance through an employer, the Human Resources department will be able to provide you this information. You can also contact your insurance provider to get the information.**

- Enter the amount each parent *pays monthly* for the children's medical, dental, and vision insurance (if any)

Monthly childcare costs paid (Line 66-68):

If there are younger children of this relationship who attend childcare

- On Line 66, there is a small blue box, enter the number of children in childcare
- On Line 67, enter the amount each parent *pays monthly* for childcare (if any)

Extra education expenses paid (Line 68):

This refers to expenses for the children to attend a private or special school and other expenses to meet the child's particular education needs. The parents **must** agree to these extra expenses.

- Enter the amount each parent *pays monthly* for the children's extra education expenses (if any)

Extraordinary (Gifted or Handicapped) Child Expenses Paid (Line 69):

This refers to expenses for the special needs of gifted or handicapped children.

- Enter the amount each parent *pays monthly* for the children's extraordinary expenses (if any)

Total Child Support Obligation (Line 70):

This amount will be calculated for you based on the information you previously entered.

**COMPLETING THE REST OF THIS FORM WILL DEPEND ON THE TYPE OF PARENTING TIME SCHEDULE YOU PLAN TO FOLLOW. At the top of the form you either selected “Equal,” “Petitioner,” or “Respondent.” Each designation effects the total child support obligation.**

**If you selected “Essentially Equal” parenting time on Line 49:**

- There are no other parts of the form for you to complete. The amounts in this section will be calculated and shown for you based on the information you previously entered.
- If there is a Child Support Obligation to be paid by either parent, it will be shown on the last line of the worksheet.

**If you selected either Petitioner or Respondent as the primary residential parent on Line 49 for parenting time (Line 75):**

- Because the children reside mostly with one parent, the other parent will receive a child support adjustment for her parenting time. This is done by adding up the total number of days each year that the other parent will have parenting time to include holidays and vacations.
- Using the Parenting Plan, count how many parenting time days the other non-primary residential parent has in a year.
  - 12 hours or more is counted as one full day
  - 6-11 hours is counted as one half of a day
  - 3-5 hours is counted as a quarter of a day
  - If less than 3 hours, it may count as a quarter of a day if the parent pays for a meal such as lunch or dinner.
- Enter the number of annual parenting time days in the first box.
- The worksheet will automatically calculate the percent adjustment in the second box and fill in the amounts on the lines.

**PRELIMINARY CHILD SUPPORT OBLIGATION**

**Each parent’s proportionate share of total support obligation (Line 77)**

This section of the form shows how much of the total Child Support Obligation each parent is responsible for. The amount is calculated based on each parent’s share of the Combined Adjusted Gross Monthly Income.

The Self-Support Reserve Test (Lines 80-83) will generate automatically, but whether to apply that test

will be in the judge’s discretion.

**The calculator is just a tool and the amount it gives is only a guideline.** The amount determined by the calculator for “child support obligation” is at Line 84. You should write this amount in the appropriate sections of your Petition, Response, Motion, or Default Decree.

During the hearing, **the judge may increase or decrease the calculated child support obligation** for either or both parents in order to serve the children’s best interests.

If there is a Child Support Obligation for the other non-primary residential parent to pay, it will be shown on the last line of the worksheet (Line 81).

You have completed the worksheet and it is time to print it. Print the worksheet by clicking on “File” in the upper left corner and selecting “Print”. Save the Worksheet to your personal computer or a memory stick and leave it open. **Closing the window without saving the worksheet will erase all the data you have entered.**

**DO NOT close the Child Support Worksheet until you have completed the Child Support Order, the instructions for which are on the next page.**
